Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-7, 25 and 26 are rejected under 35 U.S.C. 112, first paragraph for the same reasons of record as outlined in the office action dated 10/28/05.

Allowable Subject Matter

Claims 27, 34 and 35 are allowed.

Response to Arguments

Applicant's arguments and Declaration by Mr. Eduardo Palomino filed 3/30/06 have been fully considered but they are not persuasive. ***

The opinion declaration provided nothing more than what was already recited in the instant specification and failed to provide any evidence for the conclusionary statements made, especially that "one of ordinary skill in the art would not have to practice undue experimentation to find out what chemical structures or compounds, outside the ones disclosed, falls into these categories.

Applicant is using functional language to describe the compounds which is not sufficient to satisfy the requirements of 112/1. The terms that applicant are seeking to patent are too vague and indefinite such that not only is it not clear what it covers, but also that one would have to experiment unduly to find out which compounds would

work, beyond the examples given. The disclosure is insufficient to support such broad and indefinite terminology.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
